HISTORIA

Bocchi jest marką wiodącą w sektorze produktów łazienkowych z 66-letnim doświadczeniem. Misją BOCCHI niezmiennie, od założenia w 1950 roku, jest kreatywna i innowacyjna perfekcja, a także dbanie o dobro ludzi. Oferowanie innowacyjnych, wysokiej jakości oraz kreatywnych rozwiązań w produktach i usługach, było od zawsze misją Bocchi. Dzisiaj marka Bocchi oznacza design, jakość oraz dbanie o dobro ludzi. Celem Bocchi jest utrzymanie i promowanie tych wartości w przyszłości.

HISTORY

A well-established Italian company, BOCCHI is committed to combine its modern and human-oriented design approach with high technology and offering creative, high quality and innovative solutions with its products and services to its business partners at all times with a vision of being a creative, innovative organization that attaches great value to under its motto "il bagno per tutti" dating back to 1950's. With a journey from soil to ceramics, today BOCCHI leads the industry in bathroom products with its activities and the awareness of its responsibility for society and nature.

STORY

BOCCHI è una azienda italiana attiva dal 1950 il cui motto è sempre stato "il bagno per tutti"; unendo una tecnologia di ultima generazione ad una visione che ha come fulcro la modernità e l'uomo, è divenuta una società creativa che dà importanza all'innovazione e alle persone e che si è posta come obiettivo quello di realizzare il principio di fornire ai suoi soci soluzioni buone, di qualità e innovative. Il viaggio della BOCCHI con la ceramica ha inizio dalla terra, a oggi è un leader nel settore la quale agisce con la consapevolezza della propria responsabilità verso la società e la natura.

DESIGN

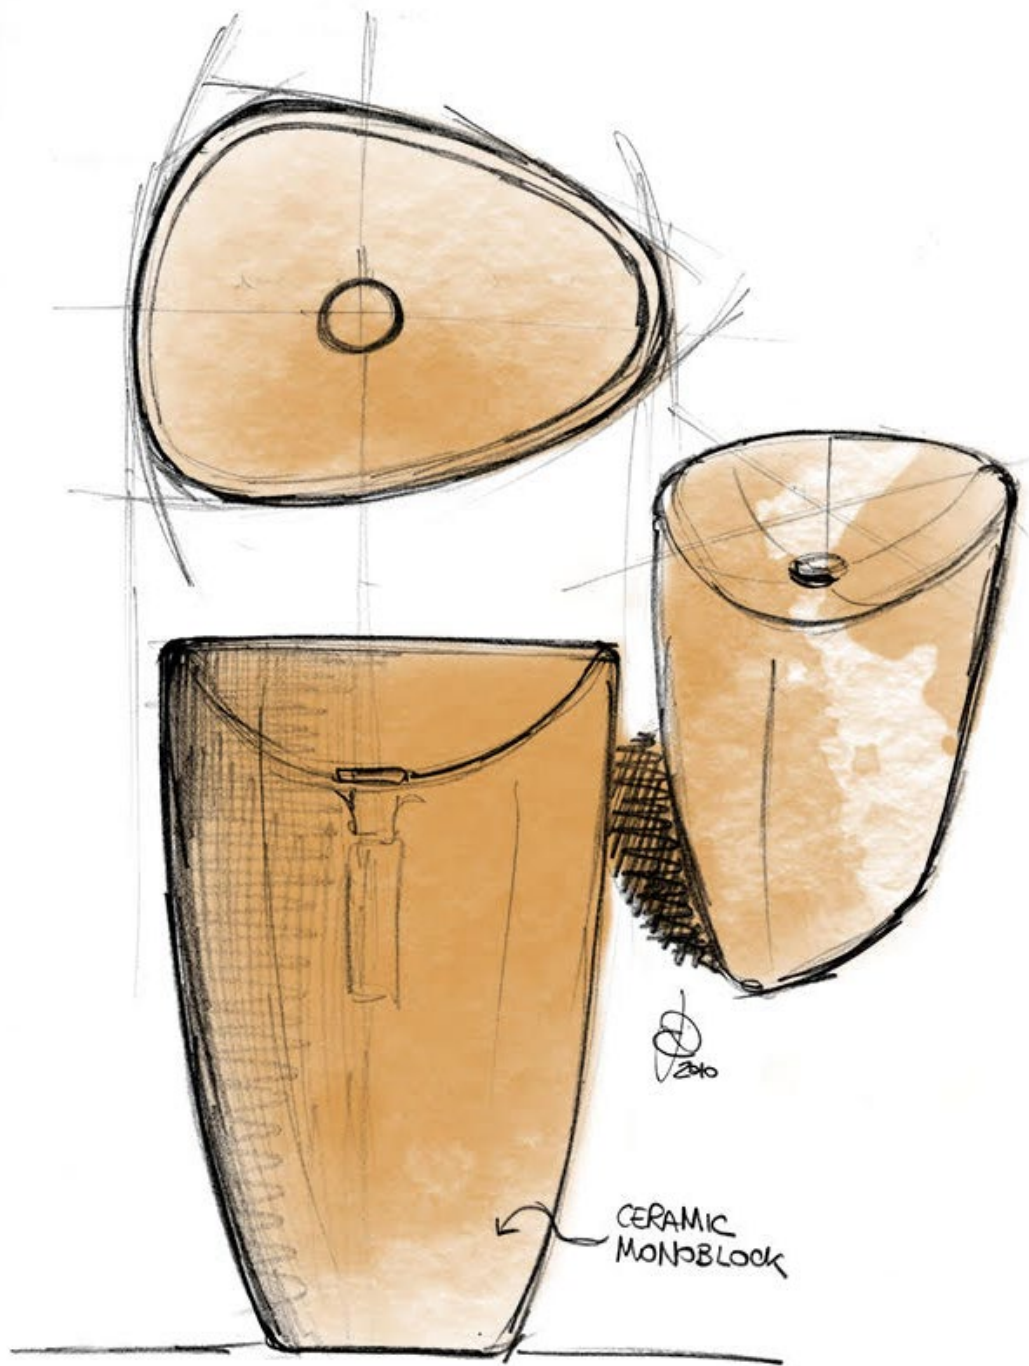

Włoscy projektanci Claudia Danelon i Federico Meroni ukończyli kierunek Inżynierii Wzornictwa Przemysłowego na Politechnice Mediolańskiej. Swoją współpracę rozpoczęli na uczelni i do tej pory pracują razem. Ich studio DanelonMeroni mieści się w chwili obecnej w Londynie, gdzie projektanci żyją i pracują. W trakcie kariery zawodowej mieli okazję pracować z małymi oraz dużymi firmami międzynarodowymi zajmującymi się meblami domowymi i biurowymi, sprzedają detaliczną, oświetleniem, zastawą stołową, produktami łazienkowymi i produktami wellness. Kolekcje mebli domowych i łazienkowych ich autorstwa były wystawiane na ekspozycjach na najważniejszych targach w Europie.

DESIGN

The idea of design now goes beyond mere objects and products and turns into a holistic experience in our age, our priority is to introduce differentiated products that have stories, driven by the idea of design, to the process where our products go through initial design to end users.

DISEGNO

In questa nostra epoca in cui il progetto del prodotto non è più un mero oggetto, ma un'esperienza totale, tutte le volte che il progetto dei nostri prodotti raggiunge il consumatore finale, vogliamo che questo crei la differenza, realizzando dei prodotti dotati di una loro storia.

ŚWIAT KOLORÓW BOCCHI

Poznaj pełną paletę odcieni, które mogą zostać odzwierciedleniem Twojej duszy, jednocześnie nadając łazience niepowtarzalnego charakteru. Oprócz klasycznej białej ceramiki BOCCHI oferuje wybór aż 23 kolorów. W paletcie barw na pewno znajdziesz odcienie swoich marzeń i sprawisz, że Twoja łazienka będzie unikalna.

BOCCHI HAS THE COLORS OF YOUR DREAMS

If you want to see colors that reflect you in your bathrooms instead of usual colors with standard design, BOCCHI brings you together with the colors of your dreams through 19 color options.

BOCCHI POSSIEDE I COLORI DEI VOSTRI SOGNI

BOCCHI possiede i colori dei vostri sogni se nel vostro bagno volete vedere dei colori che sono il riflesso di voi stessi, invece dei soliti colori classici, BOCCHI vi offre una scelta di 19 colori in cui trovare il colore dei vostri sogni.

POWIERZCHNIA SUPER SMOOTH

BOCCHI prezentuje nową technologię minimalizującą osadzenie się kamienia na szkliwionej powierzchni ceramiki. Powierzchnia Super Smooth to technologia, która wygładza powierzchnię ceramiki, nie pozwalając jednocześnie na gromadzenie się brudu oraz bakterii. Sprawia to, że utrzymanie czystości w łazience jeszcze nigdy nie było tak proste, a to wszystko dzięki wieloletnim badaniom oraz testom. Powłoka Super Smooth jest niemal 19 razy gładsza od zwykłej powierzchni ze szkliwa ceramicznego. Rezultaty testów wskazują, że technologia Super Smooth w porównaniu ze zwykłym szkliwem pozwala na oszczędność środków czyszczących.

SUPER SMOOTH SURFACE

Super Smooth Surface technology was developed by BOCCHI to minimize unwanted stains and lime formation on the surfaces of glazed porcelains that contact with dirt for. Created through years of R&D work, Super Smooth surface is 19 times smoother than normal glazed porcelain surface. Super smooth surface technology is absolutely superior to normal glazed porcelain surface in terms of hygiene and dirt formation.

SUPERFICI EXTRA LISCE

Prima in Europa, la Superficie Super Smooth, con la sua Tecnologia antiporosità, è stata sviluppata per diminuire al minimo le macchie indesiderate e le macchie di calcare sulle superfici smaltate in porcellana che vengono a contatto con lo sporco. Questa particolare superficie extra liscia, realizzata dopo anni di ricerche presso il dipartimento R&S, presenta una porosità inferiore di 19 volte rispetto alla normale ceramica smaltata. La tecnologia extra liscia, presenta una superiorità ineguagliata rispetto alle superfici in porcellana classiche per quanto riguarda l'igiene e la resistenza allo sporco.

WYNIKI TESTÓW SZKLIWA

	Powierzchnia Super Smooth Supersmooth glazed porcelain Porcellana smaltata superfici extra lisce	Standardowe Szkliwo Standard glazed porcelain Porcellena smaltata standard
Porowatość Roughness Ruvidità	Rt. 1.300 Rmax. 1.243 Rz - D. = 0.953 Ra = 0.192	Rt. 24.275 Rmax. 23.507 Rz - D = 18.153

Rt.: Wysokość profilu | Height profile | Altezza profilo

Rmax : Maksymalna głębokość porów | Maximum porosity depth | Massima profondità porosità

Rz - D: Współczynnik porowatości szkliva | Profile height of maximum porosity | Altezza profilo di massima porosità

Ra: Średnia głębokość porów | Average value of arithmetic porosity | Valore medio aritmetico di porosità

CLEAN PLUS+

“ŁŚNIAĄCA CZYSTOŚĆ NA DŁUŻEJ”

Technologia Clean Plus + sprawia, że umywalki i toalety zachowują swój blask na dłużej. Nowoczesna powłoka nakładana na powierzchnię ceramiczną redukuje chropowatość produktów, czyniąc je dwukrotnie gładzszymi podczas standardowego użytkowania. Zastosowana technologia chroni przed tworzeniem się nieestetycznych osadów na powierzchni ceramiki oraz zapobiega gromadzeniu się kamienia. Nasze produkty zachowują czystość na dłużej, a także można je bardzo łatwo wyczyścić bez konieczności stosowania silnych środków czyszczących. Wystarczy jedynie przesuniecie miękką szmatką, aby przywrócić im ponowny blask.

CLEAN PLUS+

“SPARKLE JUST LIKE THE FIRST DAY”

Washbasin and toilets maintain their bright state of the first day for a much longer period thanks to the Clean Plus+ technology, the innovation of BOCCHI R&D family. Clean Plus surface coating technology makes ceramic surfaces twice as smooth while increasing surface tension of liquids.

This way, it prevents hydrophobic surface stains, adhesion of dirt and lime formation. Your bathroom products get less dirty and it's very easy to clean them without using strong cleaning agents. Rubbing with a soft cloth is enough to maintain their first day brightness.

CLEAN PLUS+

“BRILANTE COME IL PRIMO GIORNO”

Grazie alla tecnologia, ideata dal dipartimento R&S della società BOCCHI, i vostri lavabi e i vostri WC manterranno la brillantezza del primo giorno. Con la tecnologia di rivestimento Clean Plus+, le superfici in ceramica hanno una minore porosità, garantendo l'aumento della tensione superficiale del liquido.

Grazie a questo, le macchie sulla superficie divengono idrofobiche e viene ostacolata la persistenza dello sporco e del calcare.

Il vostro bagno si sporcherà di meno e non saranno necessari prodotti di pulizia aggressivi; dovrete semplicemente passare un panno morbido sulla superficie da pulire per proteggere la brillantezza del primo giorno.

TOALETY PRZYJAZNE ŚRODOWISKU

W celu przyczynienia się do zwalczania problemów związanych z niedoborem wody spowodowanym globalnym ociepleniem, Bocchi opracowało „Ekologiczną toaletę”. Wprowadzona technologia pozwala czteroosobowej rodzinie na zaoszczędzenie ponad 30 000 litrów wody rocznie. Marka BOCCHI oferuje również armaturę łazienkową ograniczającą zużycie wody nawet do 50%.

ECO FRIENDLY TOILETS

BOCCHI developed the “Environmentally Friendly Toilets” to contribute to fighting with the issue of water resource shrinkage caused by global heating. “Environmentally Friendly Toilet” allows a family of 4 persons to save over 30,000 liters of water a year. Faucets of BOCCHI offer up to 50% water savings compared to standard faucets.

VASI ECOLOGICI

BOCCHI ha sviluppato i vasi ecologici per garantire il suo apporto alla lotta contro la riduzione delle fonti idriche causata dal riscaldamento globale. I vasi ecologici, fa risparmiare 30.000 litri di acqua in una famiglia composta da 4 persone. Le armature offerte dalla BOCCHI, garantiscono un risparmio di acqua che può arrivare fino al 50%, in base allo standard.

BOCCHI
E C O

JET FLUSH

Zastosowanie Technologii Jet Flush w miskach wiszących sprawia, że każde splukiwanie jest bardzo dokładne. W technologii tej zastosowano otwarty kołnierz, który w przeciwieństwie do tradycyjnych toalet posiadających otwory, przez które woda wlewa się do miski, nie posiada miejsc, w których gromadziłyby się bakterie oraz brud. Środek miski zostaje w 100 % oczyszczony poprzez zastosowanie efektu wiru wodnego, który z dużą siłą splukuje urządzenie. Toalety z systemem Jet Flush są jednocześnie bardzo ciche, zachowując przy tym wysoką wydajność. Dodatkowo strumień wody skierowany jest do kolana miski ustępowej, aby nad samą powierzchnią wody jeszcze dokładniej splukać nieczystości.

JET FLUSH

MORE HYGIENIC: BOCCHI Jet Flush toilets flush the bidet nozzle area as well. All areas are washed 100% in toilet cleaning.

MORE SILENT: With BOCCHI Jet Flush toilets, the water cleans by circling in the toilet owing to the special design. It flushes more silently than the water sound made by standard toilets.

STRONGER FUNCTION: BOCCHI Jet Flush toilets make more effective cleaning through faster water discharge and stronger suction than standard toilets thanks to the "jet flow system". Water circle and flush from a single direction and therefore there is no collision of bodies of water. It doesn't reduce speed during flushing.

JET FLUSH

PIU' IGIENICO: Le sedute WC dotate del sistema Jet Flush della BOCCHI puliscono anche l'ugello del WC. Con la pulizia del WC tutte le aree vengono pulite al 100%.

PIU' SILENZIOSO: Grazie al particolare design delle sedute WC dotate del sistema Jet Flush della BOCCHI, l'acqua fluisce all'interno della seduta WC effettuando un lavaggio più silenzioso rispetto a quello che avviene con le sedute WC normali.

FUNZIONE PIU' POTENTE: Grazie al "sistema a spruzzo" delle sedute WC dotate del sistema Jet Flush, l'acqua viene scaricata più velocemente rispetto alle sedute WC normali e con la sua potente aspirazione la pulizia è più efficace. Con il suo sistema di pulizia l'acqua viene fatta girare in un solo verso, impedendo alle correnti di acqua di scontrarsi. Durante la pulizia non diminuisce la velocità.

TOALETY BEZKOŁNIERZOWE

Brak kotnierza w misce wiszącej niweluje problem dostępu do trudno dostępnych miejsc toalety oraz zapobiega tworzeniu się nieestetycznego osadu kamiennego. Tym samym, konstrukcja bezkotnierzowa gwarantuje również dokładniejsze, szybsze, a przede wszystkim łatwiejsze czyszczenie przy mniejszym zużyciu środków czyszczących.

RIMLESS TOILETS

Allowing access to and cleaning of all the areas in the toilet, Rimless WC further prevents the lime in the water from forming a limestone layer inside the toilet seat. Bocchi Rimless WC also wash the bidet nozzle area thanks to their design and make maximum cleaning. Easier cleaning with less cleaning agent.

VASO RIMLESS

I servizi igienici Rimless danno la possibilità di pulire tutti i punti del vaso, ostacolando la formazione di una lastra di calcare dovuta all'acqua presente nello stesso. Grazie al design dei servizi igienici Bocchi, viene pulita anche la zona del rubinetto posto all'interno del vaso, garantendo la massima pulizia. Pulizia molto più semplice con poco detergente.
